Genetic Engineering Article Guide

Article 1: This worksheet is to assist you in pulling as much useful information from the article you've been given. You will be asked to categorize the article given to you as credible or non-credible (2.2.1) and explain why you categorize it that way (2.3.2). Next, you will summarize the article by taking notes first then combining the main points into a short statement. Finally, you will evaluate the information found within the article to form a conclusion on the topic of genetic engineering. You can complete these items in any order, if you can't find one thing, move on to the next and come back to it later!

Article Title: _____

Author(s): _____

Publisher: _____

Date Published: _____

MLA citation:

Credible or Non-Credible? Explain your choice:

Notes:

Summary of Article:

Evaluate the information from this article:

Name: _____ Date: _____ Period: _____

Article 2: This worksheet is to assist you in pulling as much useful information from the article you've been given.
